positive thinking

leads to positive things.

CHILD SAFETY OFFICER

Glenn McConnell

Please speak with Ciara if you have any concerns at all regarding a child's wellbeing or safety.

Dear Families,

On behalf of the McConnell family, Ashleigh would like to thank everyone for their support and interest in her events in Tokyo. She looks forward to being able to visit school later in the year to share her experience.

We understand the many difficulties our community are faced with during this period of remote learning. We want to let you know that we have implemented many changes to further support you and your child for these last few weeks before the holidays. We often find that students get tired or disengaged in learning come the end of term and we want to let you know that we are planning for week 10 to be a week of activities that will engage students in play based activities, experiments, virtual excursions and more!

We are using the last week of this term to engage our students in other ways from the normal Reading, Writing and Maths activities and hope that this will create some relief for you and your family. So please, hang in there.

How we can help your child in the next few weeks:

- Your child's teacher will have their Webex meeting open from the morning meeting time until 10:30am and from 11:30-12:30pm every day. Please utilize this opportunity for assistance.
- Lessons have been modified to meet the needs of students who need further assistance in tasks suitable for the expected year level. Your child will not know if they have a modified task, however they will likely have more success in completing the activity independently and feeling more successful.
- Week 10 lessons will be more *fun based* activities.

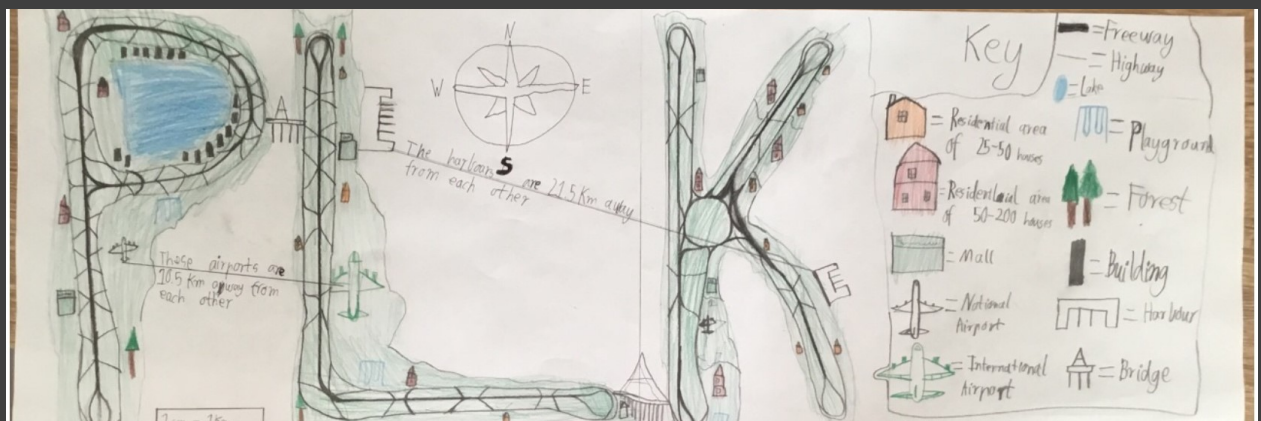

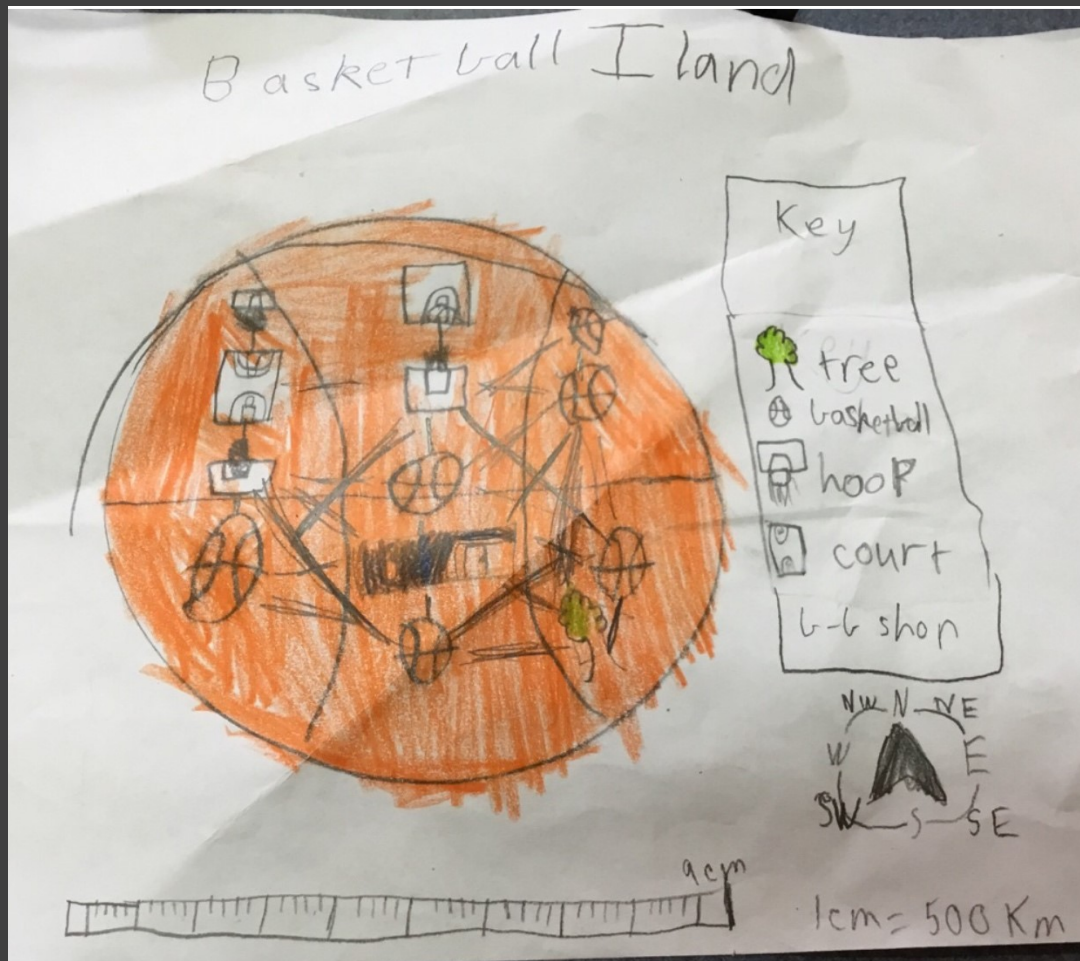

Thank you once again for your support and please contact your child's teacher first if you have any concerns or feedback.

The Leadership Team

Glenn, Ciara and Caitriona
